**RE: Jeron X Grayson Community Center Campus Parking Lot Expansion**

Dear Reverend Grayson,

On behalf of the Hill District's Development Review Panel (DRP), we offer this letter of support. At the DRP meeting this month, the DRP unanimously voted to approve acquisition of the following lots for expansion of the Jeron X Grayson Community Center's Campus Parking Lot. This approval includes the full scope of the project currently before the URA board and is reflected in the attached Campus Plan, including the acquisition of Block 9-S, Lots 253 & 275, Block 10-N, Lots 165, 168, 169 and 170 (and additional acquisitions of Block 9-S, Lots 252 and 252 B, and Block 10-N-167 from other parties) and that the scope successfully incorporates the recommendation of the DRP to include additional green space, as well as safe egress considerations. This project was previously approved in March 2017.

Thank you for contacting the DRP for approval of the Jeron X Grayson Community Center Campus parking lot expansion.

We wish you the best in your development endeavors. Congratulations again!

Sincerely,

Marimba Millions  
President and CEO
